PROBLEM

Classic ERP Systems are centralized and unsecure

One malicious success infects hundreds of millions of users
(Target, SolarWinds, Ransomware)

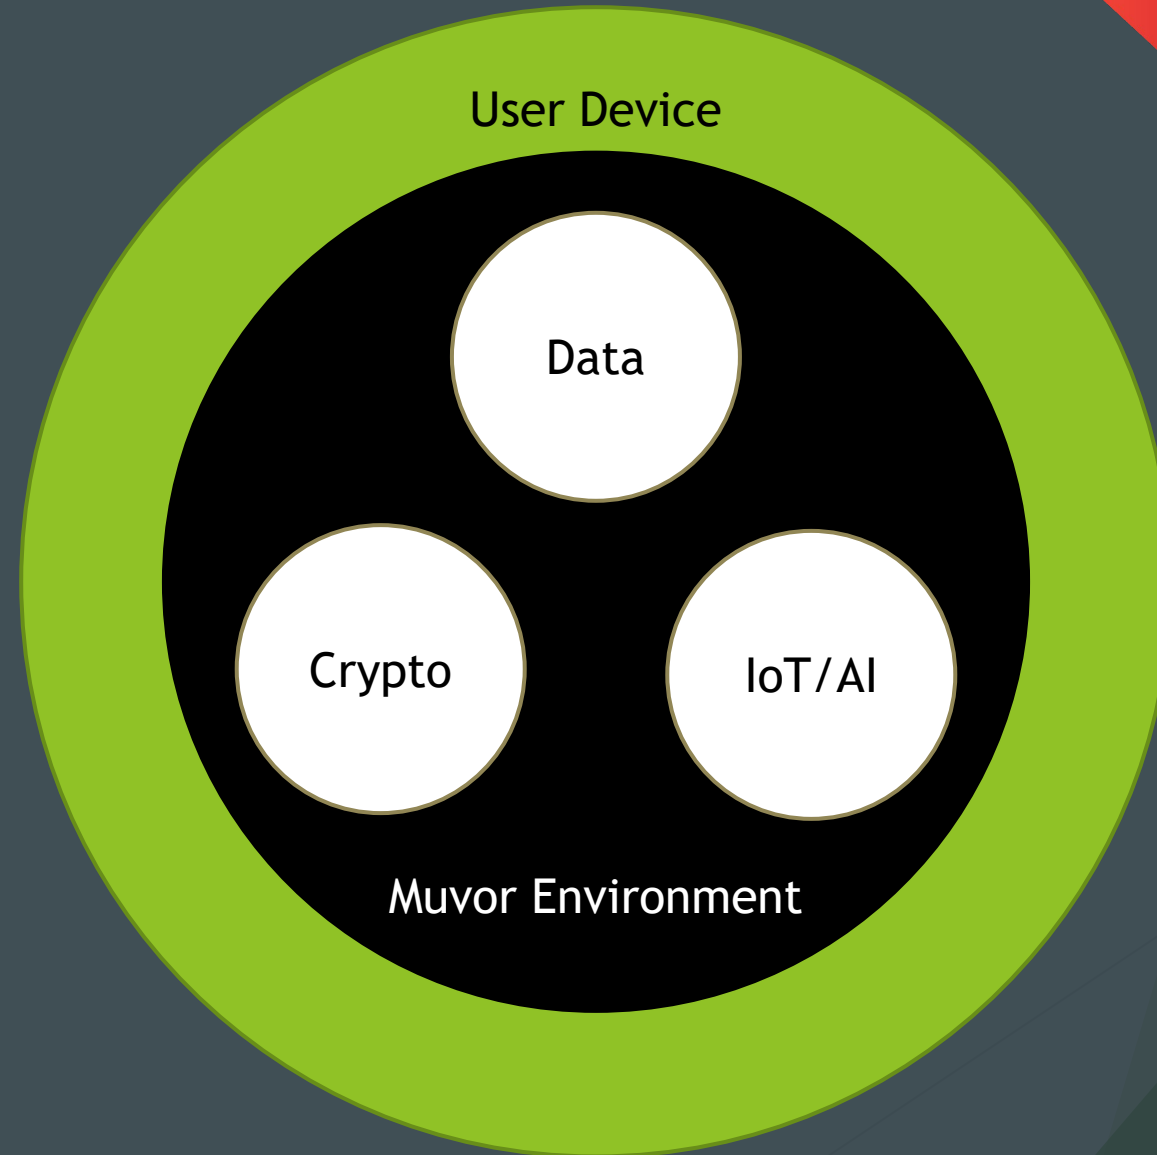

Exchanges are scary and expensive

Available exchanges are highly complex, highly unpredictable environments
(Mt. Gox, Binance, Bitfinex, XRP, PND)

SOLUTION

1. Own your Environment
2. Simple User Experience
3. Save Money on paper, recycling, low fee exchanges
4. FREE TO JOIN!

Muvor is a Web 3.0 platform for everyday goods exchange.

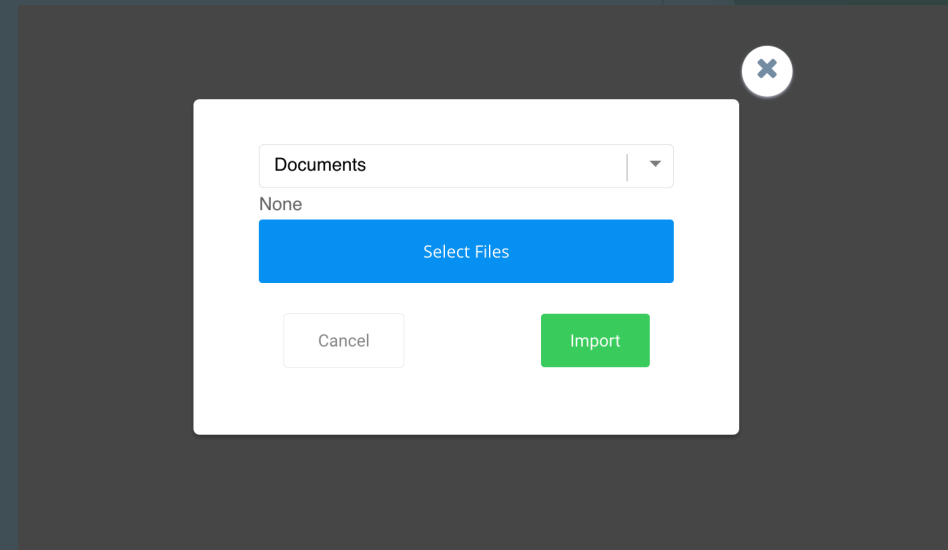

ENVIRONMENTAL BENEFITS

Muvor is a Quantum-Resistant, 5.67 Trillion token, Proof-of-Activity methodology on a dynamically scaling blockchain and open ledger.

Utilizing rotating committees (proof-of-stake) and various mining activity (proof-of-work), Muvor cuts the environmental impact to fractions that of traditional crypto mining operations.

Muvor Apps and Systems commit to fully-digital lifestyles and workspaces!

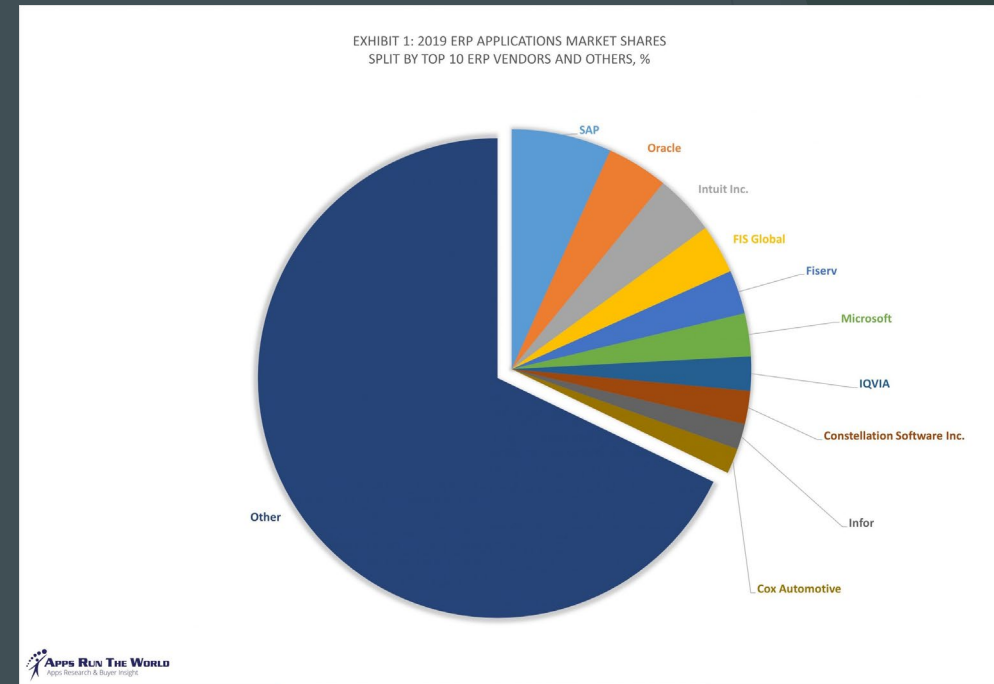

No more paper, copies, or file cabinets!

Import Screen (Document Manager)

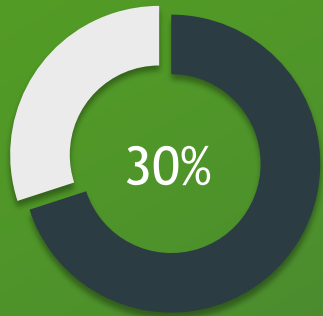

MARKET OPPORTUNITY

- \$5T TAM and rapidly growing
- Market leaders are legacy tech, complex, unfriendly
- >66% market untapped
- No go to—safe—exchange solution
