Searching for the regional
best Restaurant(s) is
expansive!

How do I differentiate
genuine reviews from
propaganda?

Which dishes are the best
when I finally find a good
place?

PROBLEM

Food Around utilizes rolling location search (ML) to recommend Restaurants and foods that best match predicted regional choice(s).

SOLUTION

Routing Customer Traffic to Food Chains – \$250B TAM by 2025

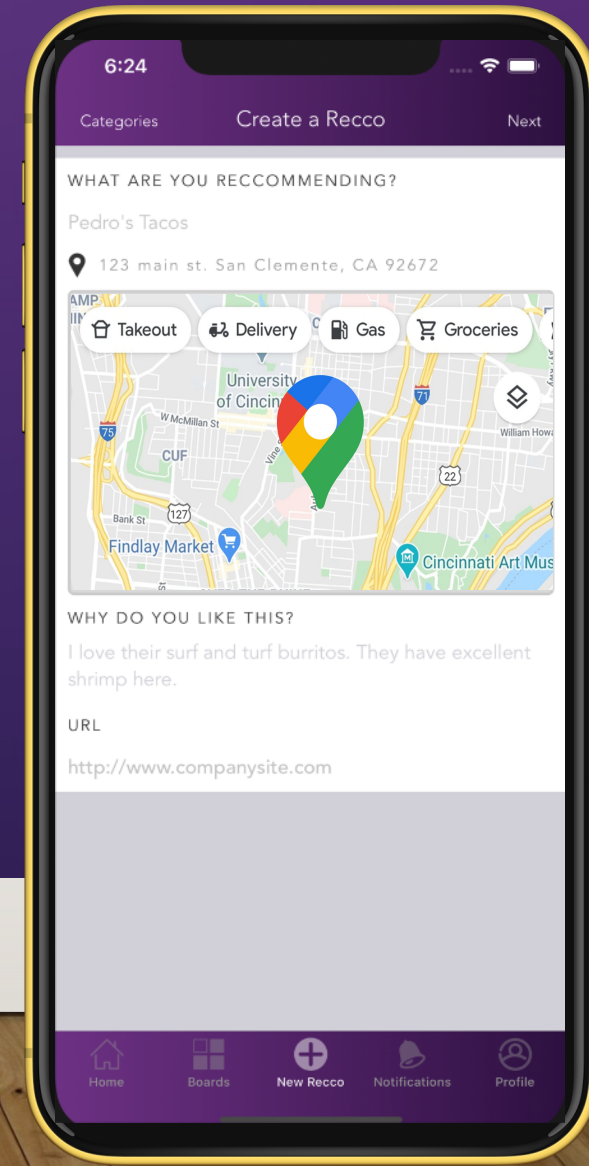

Recommendations – Live Restaurant Recommendations (\$0.01/recco)

Reviews – Source Verification, decoupled User Experience B2C

Reservations – Allows users to stay on schedule, with various calendars

Deliveries – Connecting to the Live best nearby
